### Reasons to Train the Trainer

Sometimes the best option for training staff is to hire someone or contract with outside training providers. Then again, there are compelling reasons to think about sending employees to Train the Trainer programs. Your company could benefit by maximizing your investment. Teaching an existing staff person to train other staff is cheaper compared to hiring somebody new. Businesses need to avoid expecting individuals to take on trainer duties on top of their current responsibilities. The chosen trainer needs to be relieved of some of their duties to be able to prevent trainer exhaustion.

Developing internal training resources helps to empower your company, encourage staff to be self-reliant and increase its resources. With an in-house trainer, other staff members can feel more comfortable learning new skills than they would with someone new. By internally training, new employees could be trained quickly and brought up to speed on the equipment in the event of employees turnover.
