

## **Clark Forklift**

Performing worldwide, there are currently 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those in use in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, duel fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive models of lift trucks, with parts covering more than 120,000 specific items for all of its automated equipment. Your regional Clark Dealer is your complete source for availability of all your components needs offered by Clark Totalift.

Clark features a exceptional Parts Distribution team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Worldwide, Clark has one of the most impressive supplier support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the material handling market.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark's recurrent mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001. Clark, is the first forklift producer across the world to be certified with the internationally accepted quality standard ISO 9001 for each and every one of their manufacturing plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing market position.

## **Resource Efficient Manufacturing**

Clark has preferred the extremely economical and advantageous structure of "Lean Manufacturing" for its assembly facilities and application of resources. This structure was established to acknowledge the most successful method of production facility management and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

## **Engineering**

By working together, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The new value engineering program combines modern product growth and offers superior client support and service within the industry.
